

Dear Participant,

We have come to the end of the 3rd Annual Learning Convening. *Thank you very much* for taking part in the conversations and for being one of the change-makers. As we move towards creating communities of practice which are working together to prevent VAC in East Africa, please take a moment and give us some ideas for enriching the learning initiative.

**Individually:**

1. What did you learn this week that was especially helpful for your work?
2. What action will you take right away – what are your INDIVIDUAL goals?

What will you do...	... when...	...with whom.

**As an organization:**

1. What did your team learn that was especially helpful for your work?

2. What action will your team take right away – what are your TEAM goals?

What will your team do...	... when...	...with whom.
