

Visuals in Teaching – photographs

GLP Client: International Budget Partnership

Event: “Transforming Connections into Movement” (a 3-day Executive Team Retreat)

Example: Used photographs to represent complex thinking and get everyone focused in the same direction to start the day

DAY 3

Moving into the Future

Welcome and Check-in

Overview

A Picture is Worth a Thousand Words - Warm-up

Let's start our day by envisioning the ET a year from now. I invite you to get up and review the photos on the table at the back of the room. On your own, select 1 photo that describes your thoughts about the question below.

- *Who/what will the ET be one year from today?*

Then, greet someone you have not yet greeted this morning, and share your thoughts about the image you have selected. Do this with a few people!

Let's hear some of your thoughts.
